
AUTOCAD PRODUCTIVITY: DOING THE JOB WITH EASE.

Class Description

AutoCAD has been around for a long time. Yet simply using AutoCAD every day does not necessarily make you more productive. You may not realize it, but old habits, bad habits, and inefficient commands and techniques may be robbing you of productivity. You'll become more productive by eliminating clicks and picks—period! In this session, you'll learn how to tap into AutoCAD secrets that banish repetitive steps and tasks. After this session, you'll walk away with productivity-enhancing knowledge that you'll be able to apply immediately.

Class Highlights

- Profiles and Workspaces
- Start-up and Command Line switches
- Tool Palettes for enforcing standards and creating “scratch pads”.
- Zoom, pan, view and Intellimouse settings to enhance the viewing of drawing files
- Keyboard and accelerator shortcuts
- The essentials of System Variables
- Hidden (and not so hidden) functions of everyday commands
- Menus, macros and Scripts (or action recordings) to streamline commands
- Many more “Tips N Tricks”
